

Instructions for the public

Tropical cyclone pre-alert phase

- Monitor updates about the weather event and listen to any specific instructions about the situation provided by the media.
- Fill your car's petrol tank.
- Make sure you have a first-aid kit.
- Reinforce building infrastructure (tie-down cables, roofing, etc.) taking care to remove any objects that could become projectiles.
- Ensure your gutters and other means of evacuating water are clear.
- Prune trees near dwellings.
- Store suitable amounts of bottled water, foodstuffs (food that does not really need to be cooked) and various other items such as candles, tools, flashlights/torches, adhesive tape, mops, buckets, a radio, batteries, medicines, etc., in sealed containers wherever possible.
- Secure your boats properly, following the instructions of the harbour master, where appropriate.
