

## Instructions for the public Tropical Cyclone Alert Level 2

- Do not travel by foot, bicycle, or any motorised form of transport.
- Stay inside your home or the emergency shelter provided by local authorities.
- Stay clear of any bay windows/glass doors.
- If the situation becomes extreme, find the safest and most resistant place in your home/shelter and stay there.
- Monitor the resistance of your shelter and its windows/door, especially during the night.
- Be aware of the risk of flooding.
- Remain vigilant even if the storm seems to calm down. Going outside is prohibited, especially when the eye of the storms passes.
- Wait for instructions from the authorities before leaving your home, shelter or emergency centre.
